VOLUME 9. MARYVILLE, MISSOURI, TUESDAY, NOV. 12, 1918 NO. 139

IT WAS 'A HOT TIME'

PEACE CELEBRATION CONTINUED UNTIL WELL INTO NIGHT

MUSIC, NOISE AND FLAGS

Fourth Warders Burned Bill Hohenzollern with Great Glee.—Arkoe Had Free Wienie Roast.

Not satisfied with celebrating the signing of the armistice terms both on last Thursday and yesterday afternoon the demonstration was renewed last night on a greater scale than ever and until well past midnight Maryville went the limit in noise and music. Its been a long time since "Hot Time in the Old Town" has been heard, but an impromptu band last night put the old tune back on the list of favorites and played it over and over. Several of the hardware stores kept open after supper to supply the demand for shells and despite the order that none but blanks might be used, stocks of loaded shells this morning show much depletion.

The celebrants secured the depot busses together with automobiles and with a variety of noise producing instruments from a sliding trombone to a dishpan made the rounds of the entire residence part of town. Down in the Fourth ward a "stuffed" Kaiser was burned in effigy to the accompaniment of shot guns, pistols and small cannon.

Persons who came upon the Burlington said Arkoe looked as though it was afire. A free weiner roast was a feature of the celebration with big bonfires at various points. Residents from around gathered to do honor to the occasion.

Burlington Junction, Skidmore and Elmo joined in the big jollification by having immense bonfires, band music, blowing of horns, shooting and everything that would add to the community celebration. Speeches weer made by the ministers and business men of the towns and all business was suspended.

USE YANKS FOR POLICING

The Return of American Troops May Be Delayed Two Years, Says William H. Taft.

Chicago, Nov. 12.—William Howard Taft, former president, warned the people of the United States in a speech not to expect their soldier relatives and friends back from the battle fronts of France within two years because of the big policing job which will fall on the shoulders of the United States following the signing of peace.

"The men in France will not return soon," he said. "We have two million men in Europe and they will be kept there for some time to do police work both in the countries of our enemies and in Russia. All boats in which the men were sent across will be needed to carry food and supplies to both our Allies and our foes."

THE WAR'S TOLL, 26 MILLION.

London Express Estimates Enemy's Casualties at 12,150,000.

Special to The Democrat-Forum.

London, Nov. 12.—The Express estimates the casualties of European nations during the war as follows:

Germany	6,900,000
Austria	4,500,000
France	4,000,000
Britain	2,900,000
Turkey	750,000
Belgium	350,000
Rumania	200,000
Bulgaria	200,000

With the unestimated casualties of Russia and others not included in the above list the Express estimates the total casualties of the war at 26 million men.

S. A. T. C. WILL CONTINUE

Classes and Drill Will Go on Without Interruption.—New Officer Arrives to Aid With Instruction.

There will be no interruption to the work of the Student Army Training Corps at the Normal. President Richardson received word last night from the war department that the work of the corps would proceed as usual and that it was not contemplated at this time that it would be disorganized. The message stated that there might possibly come later, some modification of the present schedule of work.

First Lieut. Kaercher of Kansas City is here to assist with instruction of members of the S. A. T. C. Lieut. Burns, who has been with the corps since its organization, will still continue to have a part of the work.

WAR PRICES FOR FOOD STILL

No Marked Decrease Soon, Says Hoover.—Food Administration Activities Will Be Continued.

Special to The Democrat-Forum.

Washington, Nov. 12. — Immediate dropping of food prices as a result of the conclusion of an armistice cannot be expected, Food Administrator Hoover declared in a statement which added that while the prices of some food stuffs will decrease, others will increase.

"With the war effectually over," said Mr. Hoover, "we enter a new economic era and its immediate effect on prices is difficult to anticipate. The prices of some food commodities may increase, but others will decrease, because with liberated shipping accumulated stocks in the southern hemisphere and the far east will be available. The demands upon the United States will change in character, but not in volume."

All activities of the food administration will be continued through the armistice period, said Mr. Hoover, adding that "there will be no relaxation of efforts to keep down profiteering to the last moment."

DRAFT IS STOPPED

MEN IN CAMPS ARE TO BE RETURNED TO CIVILIAN LIFE

NOVEMBER CALLS OFF

Classification and Examination of Registrants of September 12 Will Be Continued, However.

Washington, Nov. 12.—Local boards were instructed by the War Department today to discontinue the work of classifying registrants who on September 12 had attained their thirty-seventh birthday and to continue the classification of those who had attained their nineteenth birthday, but not their thirty-seventh. They were also directed to issue questionnaires to all registrants who had on September 12 attained their eighteenth birthday, but not their nineteenth and to complete classification of such registrants as rapidly as possible.

Washington, Nov. 12. — Secretary Baker has announced that so far as practical, all men who have been called to army service, who have not yet completed their training, will be immediately turned back to civil life.

By order of President Wilson, Provost Marshal General Crowder has directed the cancellation of all outstanding draft calls, stopping the movement the next five days of 252,000 men and setting aside all November calls for over three hundred thousand men.

Calls for the navy and marine corps are not affected by the cancellation and entrainments of men for these services and will continue as ordered. Draft boards will continue classification of registrants of September 12.

Mr. Baker made this statement after a conference, which included the heads of practically every important bureau of the War Department. He said more comprehensive announcements concerning the situation would be made later.

Turn Back All not Trained.

"All that ca nbe said now," he said, "All that can be said now," he said, under the draft have been suspended and that so far as we can, those men who have been called, but who have not completely passed through the camps, will be turned back to civilian life."

The following instructions have been sent by the provost marshal general to all local boards:

Pending developments in the situation which arises because of the fact that Germany has signed an armistice providing for the cessation of hostilities, the President directs that general and voluntary calls now outstanding for the induction and mobilization of registrants of whatever color or physical qualifications for the army be hereby canceled. Pending further instructions, no more inductions shall be made into the army for entrainment permitted or undertaken under such calls.

The President further directs that all registrants who are already inducted into the army under these calls because of the fact that the day and hour specified in their classification lists have arrived, but who have not been actually entrained for a mobilization camp, shall be hereby discharged from the army. The local boards shall so notify each registrant.

CAPTAIN ROWLETT OVERSEAS.

Wife in This City Receives Word Yesterday of Safe Arrival.

Mrs. H. S. Rowlett received a card yesterday stating that the ship on which her husband, Captain Rowlett, sailed had arrived safely at its destination. Captain Rowlett has been in service in the medical corps for the past six months.

The Brookfield Argus thinks it is all right to give Columbus credit for having discovered America in 1492, but asks to just think what the kaiser discovered about America in 1918.

ARE STILL SUBJECT TO CALL

Draft Board Clerks Kept Busy Informing Men of Status and of Cancellation of Calls.

The telephone at the local draft board offices has been kept busy since early this morning with calls from registrants who seek information regarding their status, following the conclusion of the armistice with Germany.

With the exception of calling off the quotas listed for November the work of the board will proceed as usual and classifications and physical examinations will continue until the September registration is finished. Questionnaires are being mailed to all not yet having received them and they will be required to report for examination. All registrants are subject to call the same as if no armistice had been signed. The November calls cancelled included twenty-five men for general military service to go to San Antonio, Tex., and two stenographers and a typist to go to Jefferson Barracks.

WILL HURRY PEACE

CONFERENCE WILL BE CALLED AS QUICKLY AS POSSIBLE

IS GREATEST IN HISTORY

Stable Government in Germany Must Be Set Up Before Allies Can Begin Their Dealings.

Washington, Nov. 12. — With the granting of the armistice to the beaten German armies by Marshal Foch, the next step will be the arrangement for the meeting of the peace conference, which will endeavor to reach a permanent settlement of the vast issues arising from the great world war.

More than four and a half years of incredibly bloody strife have developed problems that may not be permanently adjusted for a generation.

The Greatest in History.

The coming great peace conference will surpass any in history; not only because of the tremendous importance of the issues with which it must deal, but also literally in size. Indications are that the United States government will be represented by at least half a dozen principals, with a numerous body of secretaries, counselors, translators and clerks, and it is assumed that even the smallest of the nations which will participate will seek to make a show in point of number of delegates.

This fact may involve the transaction of most of the business of the conference by selected committees, which will represent in their composition every element and whose reports will come before the full conference for ratification.

Meeting Place not Yet Known.

As to the place of meeting, there is yet much doubt, with many claimants for that honor. While it has been urged that the conference gather in some historic spot in France, objection may lie against that proposition based on the generally accepted view that such meetings should be held at a point where they can be quite free from the charge of any local influence; in other words, it should be on neutral territory, and even some of that territory is regarded as unsuitable because of the pronounced sympathy of the population with one side or the other.

May Meet at Lausanne.

Little Switzerland is believed to be a strong favorite and there has been some mention the beautiful town of Lausanne as an ideal meeting place, one report being that American agents have quietly obtained hotel and other accommodations for the United States delegates at that place. But nothing is definitely known of the location of the meeting place.

That the Entente premiers will head their respective delegations is not doubted here and that conclusion has led to the conjecture that upon Secretary Lansing may fall the honor of leading the American delegation, which of course, probably will include Col. E. M. House, if he cares to assume that duty,and perhaps one or two of the leading members of the Senate and House. This precedent was established by President McKinley in naming the American delegates to the conference of Paris of 1898, which formally arranged peace between America and Spain.

AT VERSAILLES?

PEACE CONGRESS WILL PROBABLY BE HELD IN FRENCH CITY

PLANS TAKING SHAPE

Believe Wilson Will Soon Assure German People They Will Be Fed. Armistice Leaves Her Helpless.

Washington, Nov. 12.—The peace conference is very likely to be held at Versailles, France, and not in any neutral nation. This was indicated in a wireless received by the French high commission today. It is stated that the premiers of all allied nations will assemble very shortly at Versailles to examine problems growing out of the international developments and then adds: "It is quite probable that future international conferences will assemble at Versailles."

Washington, Nov. 12. — President Wilson held a lengthy conference with Secretary of State Lansing at the White House today. The plans for the coming peace conference and the progress of internal troubles in Germany understood were thoroughly considered. Officials believe the President will take occasion soon officially to assure the German people they will be fed and provided for.

Washington, Nov. 12.—Analysis of the terms imposed upon Germany shows them to be even more drastic than those being enforced against Austria, Bulgaria and Turkey.

From a military standpoint all of these powers have been stripped even of the means of defense.

The object sought—absolute prevention of a recurrence of hostilities—is the same in each case, and, in general, the same character of concessions were required, though in Germany's case there will be no necessity to provide for future campaigns against a remaining enemy.

German Army Thing of Past.

The surrender of 5,000 cannon, 2,000 airplanes, and other war material in proportion, military men say, means that for years to come the German state will be unable to think in terms of armed force against any of the other associated against them. Austria, Bulgaria and Turkey are in the same state as to military essentials, even if the complete political disintegration of Austria-Hungary had not virtually disposed of danger from that source.

Fleet Only Old Hulks.

The strength of the German navy has been cut away by the agreement to surrender 160 submarines, six battle cruisers, and ten battleships, fifty modern destroyers and many other craft. At this single stroke Germany would lose virtually its whole modern fleet. The ships which remain are chiefly of the pre-dreadnaught days and other obsolete types.

It was noted by officers here that Marshal Foch and his naval advisers had not lost sight of the mutiny within the German fleet and the possibility that this might interfere with the carrying out of the armistice naval terms. The supplementary condition, authorizing occupation of Helgoland as an advanced base by the Allies in case the specified ships are not promptly surrendered is designed to render the German fleet harmless in any case and its destruction certain in the end.

It was noted also with satisfaction that ample precautions had been taken in the terms against the erection of any interior defenses behind the Rhine.

Occupation of the Rhine fortresses and of a thirty-kilometer zone on the right bank of the river, wherever a bridgehead is to be protected, gives absolute domination of the forty-kilometer neutral zone established east of the Rhine to the Allied forces, even without the garrisoning of any cities or other points within the zone. The way is to be kept open, continually, for advance into the heart of Germany by a dozen routes across the great river.

IS "FLU" BETTER OR WORSE?

No Definite Information Is Available as to Conditions in City.

Whether influenza conditions are better or worse in Maryville is a matter for speculation. Mayor W. O. Garrett said this afternoon he had not been able to get a line on it, but believed more were being released from quarantine than there were new cases reported. He said two new cases were reported to his this morning. At the office of Dr. F. M. Ryan, city physician, no definite information was obtainable as to the number of cases under quarantine. No new cases had been reported to the city physician's office.

PLEA FOR MITIGATION

German Foreign Secretary Tells Wilson Surrender of Transports Means Starving of People.

London, Nov. 12.—Ex-Crown Prince Frederick William has been shot according to a Central News Amsterdam dispatch.

The ex-kaiser and fifty of his party have been interned by Dutch authorities at Chateau Joachim according to dispatch to the Daily Mail.

An Exchange Telegraph dispatch from Copenhagen today said Emperor Charles of Austria has abdicated. In addition to being emperor of Austria, Charles was king of Hungary.

London, Nov. 12.—Conditions approaching those of the French Revolution are reported from some parts of Germany today. Revolutionaries and others are roving indiscriminately thru Schleswig-Holstein. There is widespread anarchy.

Hospitals in Berlin are filled with persons wounded in fighting between the Revolutionaries and the local loyal troops in that city, said a Copenhagen dispatch to the Daily Express.

While the German revolution gegan in the navy, it is not yet certain how all naval revolutionaries regard the allies. The demand that Germany turn over a great part of her navy, the wireless reported, has been sent out by the revolutionary council on the German cruiser, Strassburg, calls upon German sailors to resist this condition of the armistice.

The food situation in Germany is grave and it is feared the nation will not be able to feed the soldiers when they arrive from the front.

The socialists have secured their grip on Berlin and the red flag flies over the whole German nation.

Dr. Solf, the German foreign secretary, has addressed a communication to President Wilson, asking him to intervene and seek mitigation of the armistice regarding the surrender of transport facilities, said a German wireless.

The President, he points out, has declared that he did not wish to make war on the German people and did not wish to impede its peaceful development.

"The German government has received the conditions of the armistice," continues Doctor Solf. "We had to accept the conditions, but feel it our duty to draw the President's attention most solemnly and with all earnestness to the fact that the enforcements of the conditions must produce among the German people feelings contrary to those upon which alone the reconstruction of a community of nations can rest, guaranteeing a just and durable peace.

"The German people, therefore, at this fateful hour, address themselves again to the President with the request that he use his influence with the Allied powers in order to mitigate these fearful conditions."

The Allied Terms.

Those terms are as follows:

I. Military clauses on western front:

1. Cessation of operations by land and in the air six hours after the signature of the armistice.

2. Immediate evacuation of invaded countries: Belgium, France, Alsace-Lorraine, Luxemburg, so ordered as to be completed within fourteen days from the signature of the armistice. German troops which have not left the above mentioned territories within the period fixed will become prisoners of war.

Must Free All Prisoners.

3. Repatriation beginning at once and to be completed within fourteen days of all inhabitants of the countries above mentioned, including hostages and persons under trial or convicted.

4. Surrender in good condition by the German armies of the following equipment: Five thousand guns (2,500 heavy, 2,500 field), 30,000 machine guns, 3,000 minnenwerfer, 2,000 airplanes (fighters, bombers—firstly D 73s and night bombing machines).

Must Retire Behind Rhine.

5. Evacuation by the German armies of the countries on the left bank of the Rhine. These countries on the left bank of the Rhine shall be administered by the local authorities under the control of the Allied and United States armies of occupation. The occupation of these territories will be determined by Allied and United States garrisons holding the principal crossings of the Rhine, Mayence, Coblenz, Cologne, together with bridgeheads at these points in 30-kilometer radius on the righth bank and by garrisons similarly holding the strategic points of the regions. A neutral zone shall be reserved on the right bank of the Rhine between the stream and a line drawn parallel to it twenty-five miles to the east from the frontier of Holland to the parallel to it twenty-five miles to the east from the frontier of Holl and to the parallel of Gernsheim and, as far as practicable, a distance of thirty kilometers from the east of stream from this parallel upon Swiss frontier.

Must Not Molest Civilians.

6. In all territory evacuated by the enemy there shall be no evacuation of inhabitants; no damage or harm shall be done to the persons or property of the inhabitants. No destruction of any kind to be committed. Military establishments of all kinds shall be delivered intact, as well as military stores of food, munitions, equipments not removed during the periods fixed for evacuation. Stores of food of all kinds for the civil population, cattle, etc., shall be left in situ. Industrial establishments shall not be impaired in any way and their personnel shall not be removed. Roads and means of communication of every kind, railroad, waterways, main roads, bridges, telegraphs, telephones, shall be in no manner impaired.

Must Give Up Rolling Stock.

7. All civil and military personnel at present employed on them shall remain. Five thousand locomotives, fifty thousand wagons and ten thousand motor lorries in good working order, with all necessary spare parts and fittings, shall be delivered to the associated powers within the period fixed for the evacuation of Belgium and Luxemburg. The railways of Alsace-Lorraine shall be handed over within the same period, together with all prewar personnel and material.

8. The German command shall be responsible for revealing all mines or delay-acting fuses disposed on territory evacuated by the German troops and shall assist in their discovery and destruction. The German command shall also reveal all destructive measures that may have been taken (such as poisoning or poluting of springs, wells, etc.) under penalty of reprisals.

Our Armies Must Be Fed.

9. The right of requisition shall be exercised by the Allies and the United States armies in all occupied territory. The upkeep of the troops of occupation in the Rhine land (excluding Alsace-Lorraine) shall be charged to the German government.

10. An armistice repatriation, without reciprocity, according to detailed conditions which shall be fixed, of all Allied and United States prisoners of war. The Allied powers and the United States shall be able to dispose of these prisoners as they wish.

11. Sick and wounded who cannot be removed from evacuated territory will be cared for by German personnel, who will be left on the spot with the medical material required.

II. Disposition relative to the eastern frontiers of Germany:

12. All German troops at present in any territory which before the war belonged to Russia, Roumania or Turkey shall withdraw within the frontiers of Germany as they existed on August 1, 1914.

Must Evacuate at Once.

13. Evacuation by German troops to begin at once and all civilian as well as military agents, now on the territory of Russia (as defined before, 1914) to be recalled.

14. German troops to cease at once all requisitions and seizures and any other undertaking with a view to obtaining supplies intended for Germany in Roumania and Russia (as defined on August 1, 1914).

15. Abandonment of the treaties of Bucharest and Brest-Litovsk and of the supplementary treaties.

Free Access to Evacuated Places.

16. The Allies shall have free access to the territories evacuated by the Germans on their eastern frontier, either through Danzig or by the Vistula, in order to convey supplies to the populations of those territories or for any other purpose.

III. Clause concerning East Africa:

17. Unconditional capitulation of all German forces operating in East Africa within one month.

IV. General clauses:

18. Repatriation, without reciprocity, within a maximum period of one month in accordance with detailed conditions hereafter to be fixed, of all civilians interned or deported who may be citizens of other Allied or associated states than those mentioned in clause three, paragraph nineteen, with the reservation that any future claims and demands of the Allies and the United States of America remain unaffected.

Reparation Is Demanded.

19. The following financial conditions are required: Reparation for damage done. While such armistice lasts no public securities shall be removed by the enemy which can serve as a pledge to the Allies for the recovery or repatriation for war losses. Immediately restitution of the cash deposit in the National Bank of Belgium and in general immediate return of all documents, specie, stocks, shares, paper money, together with plant for the issue thereof, touching public or private interests in the invaded countries. Restitution of the Russian and Roumanian gold yielded to Germany or taken by that power. This gold to be delivered in trust to the Allies until the signature of peace.

V. Naval conditions.

20. Immediate cessation of all hostilities at sea and definite information to be given as to the location and movements of all German ships. Notification to be given to neutrals that freedom of navagation in all territorial waters is given to the naval and mercantile marines of the Allied and associated powers, all questions of neutrality being waived.

To Surrender 160 Submarines.

21. All naval and mercantile marine prisoners of war of the Allied and associated powers in German hands to be returned without reciprocity.

22. Surrender to the Allies and the United States of America of 160 German submarines (including all submarine cruisers and mine laying submarines) with their complete armament and equipment in ports which will be specified by the Allies and the United States of America. All other submarines to be paid off and completely disarmed and placed under the supervision of the Allied Powers and the United States of America.

Will Give Up Seventy-Four Ships.

23. The following German surface warships, which shall be designated by the Allies and the United States of America, shall forthwith be disarmed and thereafter interned in neutral ports, or for the want of them, in allied ports, to be designated by the Allies and the United States of America and placed under the surveillance of the Allies and the United States of America, only care takers being left on board, namely: Six battle cruisers, ten battle ships, eight light cruisers including two mine layers, fifty destroyers of the most modern type.

Will Sweep up Mines.

24. The Allies and the United States of America shall have the right to sweep up all mine fields and obstructions laid by Germany outside German territorial waters, and the positions of these are to be indicated.

25. Freedom of access to and from the Baltic to be given to the naval and mercantile marines of the Allied and associated powers. To secure this, the Allies and the United States of America shall be empowered to occupy all German forts, fortifications, batteries and defense works of all kinds in all the entrances from the Categat into the Baltic and to sweep up all mines and obstructions within and without German territorial waters without any question of neutrality being raised, and the positions of all such mines and obstructions are to be indicated.

Blockade Is to Continue.

26. The existing blockade conditions set up by the Allies and associated powers are to remain unchanged and all German merchant ships found at sea are to remain liable to capture.

27. All naval aircraft are to be concentrated and immobilized in German bases to be specified by the Allies and the United States of America.

28. In evacuating the Belgian coasts and ports, Germany shall abandon all merchant ships, tugs, lighters, cranes and all other harbor materials, all materials for inland navigation, all aircraft and all materials and stores, all arms and armaments and all stores and apparatus of all kinds.

29. All Black Sea ports are to be evacuated by Germany; all Russian war vessels of all descriptions seized by Germany in the Black Sea are to be handed over to the Allies and the United States of America, all neutral merchant vessels seized are to be released; all warlike and other materials of all kinds seized in those ports are to be returned and German materials as specified in clause twenty-eight are to be abandoned.

30. All merchant vessels in German hands belonging to the Allied and associated powers are to be restored in ports to be specified by the Allies and the United States of America without reciprocity.

31. No destruction of ships or of materials to be permitted before evacuation, surrender or restoration.

32. The German government will notify the neutral governments of the world, and particularly the governments of Norway, Sweden, Denmark and Holland, that all restrictions placed on the trading of their vessels with the Allied and associated countries, whether by the German government or by private German interests and whether in return for specific concessions such as export of shipbuilding materials or not, are immediately canceled.

33. No transfers of German merchant shipping of any description to any neutral flag are to take place after signature of the armistice.

VI. Duration of armistice:

34. The duration of the armistice is to be thirty days, with option to extend. During this period, on failure of execution of any of the above clauses, the armistice may be denounced by any of the contracting parties on forty-eight hous' previous notice.

VII. Time limit for reply:

35. This armistice to be accepted or refused by Germany within seventy-two hours of notification.

IS "HERE TO THE FINISH"

Cecil Wilson Writes the Following Letter to Hosick Holmes.

France, Oct. 15.

Well, here I am over here in this country they call France, having just as good a time as anybody. I would not take anything in the world for my trip across the Atlantic and my travels in France. Have seen many things that are great to see for one never here before. Of course this country is old and odd to us but we are getting used to it now but I think that the old U. S. A. will look mighty good to us, even if it has been a wonderful trip for us, laying aside the right we are fighting for.

The streets are narrow and the sidewalks the same and the buildings mostly stone. Have never run across a brick or wooden house yet except what the Americans have built, such as barracks.

The country and people are hard for us to understand at the start but I am getting so that I can speak a little French and manage to get most anything I want in the line of eats. That's what we all learn first. We get plenty to eat and warm clothes to wear so think we will be able to stay as long as the Germans want to battle Anyway, I know we are not suffering for anything. You notice by the papers the U. S. soldiers are certainly doing their part and the Hindenburg line is a mere trifle. They don't think much of going into a battle now, all they think of is going where they start and they do it. Old Nodaway turned out some fighters after all. They have all done well and are not out of heart with their work.

I haven't run across one yet who wants to come home before it is finished. So never think they are homesick because they are not, but when the war is over, the Statue of Liberty is the first thing they will watch for.

We sleep 'most any place and I have done the same, from a nice bed in a French home to out in the open fields when it is raining. Sleeping in barns is not half bad. Under wagons is a nice place and No Man's Land is a pleasant place to spend the night. Of course they wake you up once in a while shelling but if they get too hot, we move on a ways. * * *

All the boys I hear from that are over here are fine and dandy and like it fine. Tell all my friends "hello" and that I am feeling the best in the world and that I will be home next summer after the war.

Wishing you a Merry Christmas and a Happy New Year, I remain, here to the finish.

JOHN CECIL WILSON,
Hdqs. 4th Army Corps, A. E. F.

The Newest and Most Beautiful
SERVICE FLAG

A badge of honor should be displayed in the window of every home that has sent a boy into the Army. It is your duty and privilege to hang one of these insignias of honor in your window so all may know that a soldier has gone or is on his way to fight for liberty.

This service flag is 9x11¼ inches, made of dark red felt with metal top and silk cord. In the center of the red field is a large white star; on it is a smaller one of blue; below are two shields, their points meeting on a shield of stars and stripes with fitting words "Over There" painted in dark blue. Tell the world he has gone across or about to go by displaying this service flag, 2 or 3 stars if desired.

Sent Free and Postpaid with a two-year subscription to People's Popular Monthly, the leading magazine of the middle west. Send 50c today and get this splendid home and story magazine for two years, and this beautiful service flag will be sent you postpaid by return mail. Address Service Dept. 409.

WRITES FROM ENGLAND

Edgar McClurg in Aero Squadron at Camp Waddington.

Mr. and Mrs. S. A. McClurg of this city, have received the following letter from their son, Edgar, in England, in which he tells many interesting things of the civilian and army life over there.

Dear Papa and Mama: I received your letter of August 9, yesterday, and was very glad to hear from you. I am getting along fine. We are having quite a bit of chilly, rainy weather here now and some frost. This is a pretty country where I am. Quite level and lots of trees. The trees are too small for lumber and all the lumber comes from abroad. The section around here resembles South Dakota quite a bit with the exception of the soil and the trees. The crops here were good this year. They raise all small grains. I have seen no corn at all. It seems strange for they call everything corn and they don't know what corn is. I have seen many things of interest since I have been here. They do not farm and transport over here anything like we do. They use a two-wheeled cart and one horse for a wagon. Sometimes when they have an extra heavy load, they hitch one horse ahead of the other. The only time I have seen horses abreast is with the army wagons and a binder. In place of a buggy they have a sort of Chinese phaeton. They have a large box between shafts and will carry four passengers. The groceries and merchandise is carried in carts same as other things. You can see people going along gigging in those cars and it looks as if it shook them more than a Ford. The binders they use are about a three or four foot cut and they only use three horses. They have no bundle carrier. Their plows are like walking ganzs. They have two furrows at once with only one beam and look like they cut about eight or ten inches. There is a wheel on the front end of the beam.

They have fine roads, all rock and macadamized. The shortage of gasoline is going to spoil a lot of people's Sundays. They are close with it over here and only use it for goverment work. Autos are mighty scarce here. They have a few Fords and a few Dodge cars but most of them are in government work.

I work on the airdome and take care of the airplane accidents and at nights when there is a convoy, I haul wounded soldiers from the hospital train to the base hospital. What do you think of the war by this time? I am looking for it to be wound up now before long. Do you get much of my mail. I write every week. The letter I received from you yesterday is the second one I have had since I have been here.

Army life is not bad, but it is not what you would call sunshine by any means. We get passes and can go to town most every night. They give us 48 hours leave with passes every month or six weeks if your conduct is good. I am going on one this week and am going to see some of the cities around. We get a seven days' pass at the end of four months. I have been here over four months so will have one coming when I want it. I think I will go to Scotland when I do get it and want to see Ireland if I can. Would like to invite you to eat Christmas dinner with me in Berlin. I may not be there myself, but our motto is "Berlin or Hoboken by Xmas." * * *

Your son,
EDWARD W. McCLURG.

RAY KINNEY IN FRANCE.

Former Employe of the Townsend Company in Active Service.

Ray W. Kinney, a former employe of the Townsend Grocery Co., has been in France since July, most of the time in active service. He registered at Okeene, Okla., and trained at Camp Travis, Texas. The family lived in Maryville until a few years ago. The following is part of a letter written to the young man's mother, who now resides at Stella, Mo.:

France, Oct. 16.

Dear Folks: It has been some time since I have had time to write you, as we have been on the move for several days. We are back now where the big guns do not sound so plainly and we have no shells to dodge. We came through some beautiful country. One night we camped in the grape country and as it was picking season, we had some to eat. They were a great treat too. This was the most enjoyable trip I have taken since coming to France. Of course one was glad to be leaving the front, as we had a long, hard stay there and that added to everyone's spirits. Then too, we have several men in our organization who are regular clowns and can furnish worlds of amusement. We have had lots of rainy weather and several heavy frosts and everything is beginning to look like fall. I haven't had any mail from you for some time, until yesterday, I received two letters. One dated Sept. 19 and one Sept. 20. There is very little I can write about, so will close for this time. Am well and feeling fine and hope this will find you all the same. Write soon and tell me all the news.

PVT. RAY W. KINNEY.
C. G, 357th Inft., A. E. F.

Enclosed with the letter is the following printed congratulations from the commander of the brigade, sent to each of his men after their engagement in the St. Mihiel sector.

Headquarters 179th Inft. Brigade
A. E. F., Sept. 30, 1918.

To 179th Brigade:

For what you have done in this past month, I am proud of you. Everyone in any way connected with you is proud of the bonds that linked them to you and above all, your home is proud of you and glory in what you have done. Keep on in your stride, the enemy knows and fears you. A few more drives then a touch down back of the Hindenburg line.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet — colds of the chest (it often prevents pneumonia). It is always dependable.

Red Cross News From Nodaway Auxiliaries

MRS ARTHUR M. CROOKE
Phone, Hanamo 4364

(Note:—Please report or send all news of Red Cross Activities to the editor of this column)

Help Santa Find His Way to France.

This year "Night Before Christmas"
Is not as of yore,
For the Red Cross has placed it a whole month before.
No, the clock's aren't to blame,
Though the whole summer through
They behaved so peculiarly to me and to you.
For the reason is this—It's a long way to France
For a package to travel, so don't take a chance!
Yes, November the Twentieth's the very last day
That the Red Cross can send Christmas cheer on its way.
Now is the time to pack goodies—a pair warm socks
Cigarettes, candy sweets, playing cards in a box.
Of red holly or mistletoe add just a sprig
To remind him the family both little and big
Are all thinking of him on this fine Christmas day,
May his luck be the best!—tho' he's so far away.

Another week of the closing order. Influenza conditions will prevent the workrooms being open this week again and none of the auxiliaries will meet. Headquarters will remain open as usual.

George W. Simmons, manager of the Southwestern Division just returned from a meeting with Red Cross and government officials, sends the following to all chapters: "It is the unanimous concensus of opinion that even though an armistice should immediately be signed, which would indicate early peace, the work of the Red Cross will not in any way let up. With the exception of surgical dressings and some hospital supplies, the calls for finished articles will be as great as ever. Chapters should not relax their efforts. Unlimited quantities of knitted articles are still needed. Therefore keep knitting all the yarn we send you. Peace will be a crucial test by which the people of America will demonstrate to the world that we not only are united in war but also we are united in peace and proceed with reconstruction abroad and at home with the same unselfish confidence in our national leaders, as has made possible the marvelous results of our war work abroad and at home.

Those who are entitled to receive Christmas boxes to send over seas may get them at the branches which are supplied from the Chapter. Ask your branch officers for them. Branches are also advised that it is desired that everyone receive a box and if there are not enough on hand notify M. L. Alderman, secertary, immediately, as they have to be wired for. A wire order will go forward Tuesday night. If you need more boxes phone him your order.

The need for nut shells and fruit pits is so urgent that division headquarters has asked that we send them in at once by parcel post. All auxiliaries and individuals are urged to make special effort to get these to the Chapter headquarters without delay, so that they may be forwarded. We cannot afford to neglect this very important assignment. Gather up your shell and fruit pits at once and send them in.

Branches, Notice: In order that every soldier overseas may receive a Christmas box the Nodaway county chapter has been assigned a quota of 500 boxes to be filled by **donation.** This will give about 35 to each branch. These boxes will be distributed to the soldiers who will not receive packages from parents or relatives. Every soldier overseas must be remembered. It is called the "Homeless Soldier's Christmas Box." It is hoped that every branch will see that its quota of boxes is filled. Boxes must be returned to the branch for mailing and the donor will be required to pay the postage amounting to approximately 25 cents. Boxes should be distributed as quickly as received to all who will volunteer to fill one or more.

The time for turning in our last quota of knitted articles is long past due. The quota must be completed before we will receive our next shipment of yarn. It is urged by Miss Hattie Pierce that no time be lost in getting the overdue articles in without delay. There is plenty of work ahead for the knitters and our coming shipment of yarn should be on its way. Let's keep our good record for promptness in filling orders.

Have you a boy or a friend overseas? Why not send him a copy of "Home News?" It's better than a letter—tells all the news of interest of Nodaway county—nothing else—not even advertisements. It's a four-page news paper. It doesn't cost a cent and copies may be had at any branch or at headquarters. Just ask for one a more and we'll them as you would any other paper, or they can be sent in a large envelope as a let . Every Nodaway county soldier should receive one—and he'd be tickled to death to have it. Get one today.

Details of the Christmas membership campaign of the Red Cross will be announced shortly. The organization will endeavor to enroll all Americans in the world the week of December 16-23. Roy J. Curfman is chairman of the membership drive for Nodaway county.

Report of Rebecca auxiliary at Wilcox for October is as follows: Total membership 29, hours work 94, work by auxiliary: 20 many tailed bandages 50 shot bags, 11 5-yard rolls, 12 paper backed pads; contributed to the linen shower; 7 handkerchiefs, 1 sheet, 10 hand towels, 5 bath towels, the auxiliary had three meetings in October; cash on hand $5.75. Secretary A. Neil Somerville of Maryville branch appreciates the report and suggests that secretaries of other auxiliaries follow the example.

Mourning brassards, a black arm band on which is a gold star, is meeting with the general approval of relatives who have lost men in the service. The brassards are to be worn in lieu of regular mourning. The popularity of them is indicated by orders received in Washington for 20,000 more of them. They may be had by widows and parents of men lost in the service. Get them from Miss Bettie Turner of the Home Service department.

Write to that boy. He didn't get a letter from home and he doesn't care what happens to him. All the other fellows are smiling and chuckling over their mail. He's out there wondering what the trouble is back home across the Atlantic. He's worried because he hasn't heard from "those who care." There are some families who won't write to their soldiers because all they have to tell is sad. Home Service Sections of the Red Cross are organized throughout the country to give the information and help needed to make sad news, cheerful. Their business is to chase away the worry which keeps "that boy" from being a good fighter. Their work is to see that in the next mail distribution he is not left out. And you, each one of you, just to make sure that "that boy" is not your boy, send your soldier a cheerful "homey" letter, not only tonight, but keep them going.

Eugene Pettus, director of the conservation of the Red Cross, is urging the formation of nutting clubs in an effort to increase the supply of nut shells sought by the government in the making of gas masks for American soldiers.

Doing the recent advance of the American soldiers, Red Cross supplies and provisions were carried to the front line trenches by airplane owing to the fact that the roads became congested with vehicles carrying munitions.

The Red Cross has established forty special recruiting stations in Missouri, Kansas, Texas, Arkansas and Oklahome in an effort to obtain hundreds of workers. The demands upon the Red Cross have grown so enormously that the organization's work will be impaired unless men of business training offer their services. Men are wanted in military camps to render emergency relief of every kind when called upon by the military authorities to help such soldiers as are worried about their families, to visit and to cheer up soldiers in the base hospitals and to supervise the distribution of supplies in camps and cantonments. Men and women are wanted in Washington to work as accountants, stenographers, secretaries and buyers of durgs, medicines, surgical instruments and hospital supplies. Men thoroughly experienced in commercial practice along merchandising lines, also are wanted.

SAW HOMER CROY IN PARIS

Lee Shippey of Higginsville, Was Not Lonesome Long on the Paris Boulevards.

In a letter to the Kansas City Star, Lee Shippey, well known Missouri writer and newspaper man and who is now in Paris tells of meeting Homer Croy, the Maryville author, now engaged in film work with the Y. M. C. A. A part of Mr. Shippey's letter follows:

Paris, Oct. 11 (by mail).—In Paris it was, near the Place de l'Opera, and I felt like a man in a book that night—Robinson Crusoe. The Boulevard des Italiens just then was swirling and eddying with so many streams of traffic and people that it made Fifth Avenue in New York or Michigan Avenue in Chicago, or even Grand Avenue in Kansas City look like back streets in Higginsville on a Sunday afternoon. Virtually all those people not only were strangers to me, but spoke an alien tongue and couldn't understand the one I spoke. It seemed a long, long way from old Missouri, and I was feeling as lonesome as Crusoe before he met Friday. And then——

"Why, hello, Lee!"

It was Homer Croy, once a University of Missouri boy from Maryville, but now editor of the Overseas Weekly, the official moving picture service of the A. E. F. Every night two hundred picture shows are put on at army camps in France by the department Croy is in and the same pictures are shown in all the training camps in America. This service, which is handled by the Y. M. C. A. has made that organization the largest consumer of film supplies in the world and millions of men owe hours of entertainment and pleasure to the efforts of Homer Croy.

"Gee, it's great to see a man from Missouri!" I exclaimed, after I'd lifted his "Y" cap and gazed on his baldish head and assured myself that it was he. "My eyes will be sticking out so one can knock 'em off with a stick for ten minutes from sheer surprise."

"If it affects you that way we'd better get you a pair of blinders before going on down the street," said Croy. "Why, if you want to see folks from home this is the place to do it. They're all over here. Just stand on the corner here and watch 'em go by. You can see someone from Missouri nearly any time you stand a while either on this street or the Champs Elysee."

CURE FOR BLUES NEAR THE CAMPS

Community Service Takes Place of Mother, Friends and Home for Soldiers.

Ten young officers of the Student Army Training Corps of the University of Detroit recently applied for a furnished house and a housekeeper who would not be a servant, but, as one young officer expressed it, "the sort of woman to whom the boys can call out 'Hello, mother!' when they come in the front door."

Homesickness is the malady for which War Camp Community Service supplies innumerable cures.

"We've got your number," says the W. C. C. S. to the homesick boy from camp with leisure to spend in any one of the three hundred towns scattered over the country. While he's wondering what on earth he'll do with himself when he gets there, not knowing a soul in town and with a limited percentage of his "thirty per" in his pocket, along comes a friendly printed card from the local branch of his own lodge announcing a reception that night especially for soldier members. By the same mail the Methodist church sends an announcement of all its meetings, addressed to him, with **This Means You** printed at the bottom. How did they know he was a Methodist?

He had forgotten about the little "Personal Card" he made out at the adjutant's request during his first day in camp when it was only one of the endless details in the round of dentists and doctors and general confusion. The W. C. C. S. had not only his number, but his name and address, his home town, the name of the school he'd gone to and a good bit about the things he was fondest of doing—each fact written into a little blank on the card especially for it.

INFLUENZA IS DUE TO WAR

Discoverer of Germ Maintains They Are Brought by Prisoners Returning To Italy From Austria.

Rome, Nov. 8.—Professor Ciauri, who is credited with the discovery of the bacillus of Spanish influenza maintains that the germs are brought to Italy by prisoners returning from Austria.

In regard to his discovery, the isolation of the microbe and the treatment of the malady, he writes:

"The official report of my discovery of the bacillus of the so-called Spanish influenza was published for the first time on September 29 in the Policlinico, an important Italian medical paper.

"The micro-organism discovered by me is called the Bacillus Bi Polar Philomorphus Emoseptic. It is found in the blood and sputum of the victims and spreads in the air around those infected. It is also found in the expectoration of convalescents. It develops slowly, often requiring as many as five days from the time of its insertion in the culture tubes.

"As a result of its constant presence in the blood the epidemic may be called pseudo influenza septicamia. This micro-organism has no relation to the bacillus of influenza and is absolutely new to medicine. It is harmless to rats, rabbits and chickens.

"The principal means of contagion are by contact and the air. The principal preventive measures consist of the isolation of the sufferer until full convalescence. It is imperative that physicians and nurses should cover their mouths and noses with masks infused with menthol.

"Experiments are being made to perfect a serum for vaccination. In grave cases hypodermic injections of collodion or of sublimate are recommended."

"CAN I BE CURED?"

How often have you heard that sad cry from the victims of disease. Perhaps the disorder has gone too far for help, but oftener it is just in its first stages and the pains and aches are only nature's first cries for help. Do not despair. Find out the cause and give nature all the help you can and she will repay you with health. Look after the kidneys. The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering and throwing off the poison that constantly accumulates in the system, everything goes wrong. GOLD MEDAL Haarlem Oil Capsules will give almost immediate relief from kidney and bladder troubles and their kindred ailments. They will free your body from pain in short order. But be sure to get GOLD MEDAL. Look for the name on every box. In three sizes, sealed packages. Money refunded if they do not help you. Adv.

SHUCK NEIGHBORS CORN

Twenty-six Men Spend Day Working in the Fields for Mrs. Al Taylor Shuck 700 Bushels.

Twenty-six of the good-hearted neighbors of Mrs. Al Taylor, living northwest of the city visited her farm yesterday and shucked seven hundred bushels of corn. The men took fifteen teams and wagons and finished the job in good time that evening. Mrs. Taylor served a fine dinner to the workers at noon and she was assisted in this by Mrs. Ed Babb, Mrs. E. J. Seiple, Mrs. Elihu Shell, Mrs. J. C. F. Taylor and Miss Mary Taylor.

Mrs. Taylor was widowed in July last when her husband was accidentlydrowned and since that time she has had the care of the farm alone. The twenty-six men who did the work were E. J. Seiple, Clint Adams, Harry Fisher, Verne Manley, E. W. Babb, Joe Cockayne, Elihu Shell, C. J. Duncan, William Garrett, Mart Adams, J. P. Deardorf, Lewis Neidle, M. B. Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

VOLUME 9. MARYVILLE, MISSOURI, TUESDAY, NOV. 12, 1918 NO. 139

IT WAS 'A HOT TIME'

PEACE CELEBRATION CONTINUED UNTIL WELL INTO NIGHT

MUSIC, NOISE AND FLAGS

Fourth Warders Burned Bill Hohenzollern with Great Glee.—Arkoe Had Free Wienie Roast.

Not satisfied with celebrating the signing of the armistice terms both on last Thursday and yesterday afternoon the demonstration was renewed last night on a greater scale than ever and until well past midnight Maryville went the limit in noise and music. Its been a long time since "Hot Time in the Old Town" has been heard, but an impromptu band last night put the old tune back on the list of favorites and played it over and over. Several of the hardware stores kept open after supper to supply the demand for shells and despite the order that none but blanks might be used, stocks of loaded shells this morning show much depletion.

The celebrants secured the depot busses together with automobiles and with a variety of noise producing instruments from a sliding trombone to a dishpan made the rounds of the entire residence part of town. Down in the Fourth ward a "stuffed" Kaiser was burned in effigy to the accompaniment of shot guns, pistols and small cannon.

Persons who came upon the Burlington said Arkoe looked as though it was afire. A free weiner roast was a feature of the celebration with big bonfires at various points. Residents from around gathered to do honor to the occasion.

Burlington Junction, Skidmore and Elmo joined in the big jollification by having immense bonfires, band music, blowing of horns, shooting and everything that would add to the community celebration. Speeches weer made by the ministers and business men of the towns and all business was suspended.

USE YANKS FOR POLICING

The Return of American Troops May Be Delayed Two Years, Says William H. Taft.

Chicago, Nov. 12.—William Howard Taft, former president, warned the people of the United States in a speech not to expect their soldier relatives and friends back from the battle fronts of France within two years because of the big policing job which will fall on the shoulders of the United States following the signing of peace.

"The men in France will not return soon," he said. "We have two million men in Europe and they will be kept there for some time to do police work both in the countries of our enemies and in Russia. All boats in which the men were sent across will be needed to carry food and supplies to both our Allies and our foes."

THE WAR'S TOLL, 26 MILLION.

London Express Estimates Enemy's Casualties at 12,150,000.

Special to The Democrat-Forum.

London, Nov. 12.—The Express estimates the casualties of European nations during the war as follows:

Germany	6,900,000
Austria	4,500,000
France	4,000,000
Britain	2,900,000
Turkey	750,000
Belgium	350,000
Rumania	200,000
Bulgaria	200,000

With the unestimated casualties of Russia and others not included in the above list the Express estimates the total casualties of the war at 26 million men.

S. A. T. C. WILL CONTINUE

Classes and Drill Will Go on Without Interruption.—New Officer Arrives to Aid With Instruction.

There will be no interruption to the work of the Student Army Training Corps at the Normal. President Richardson received word last night from the war department that the work of the corps would proceed as usual and that it was not contemplated at this time that it would be disorganized. The message stated that there might possibly come later, some modification of the present schedule of work.

First Lieut. Kaercher of Kansas City is here to assist with instruction of members of the S. A. T. C. Lieut. Burns, who has been with the corps since its organization, will still continue to have a part of the work.

WAR PRICES FOR FOOD STILL

No Marked Decrease Soon, Says Hoover.—Food Administration Activities Will Be Continued.

Special to The Democrat-Forum.

Washington, Nov. 12. — Immediate dropping of food prices as a result of the conclusion of an armistice cannot be expected, Food Administrator Hoover declared in a statement which added that while the prices of some food stuffs will decrease, others will increase.

"With the war effectually over," said Mr. Hoover, "we enter a new economic era and its immediate effect on prices is difficult to anticipate. The prices of some food commodities may increase, but others will decrease, because with liberated shipping accumulated stocks in the southern hemisphere and the far east will be available. The demands upon the United States will change in character, but not in volume."

All activities of the food administration will be continued through the armistice period, said Mr. Hoover, adding that "there will be no relaxation of efforts to keep down profiteering to the last moment."

DRAFT IS STOPPED

MEN IN CAMPS ARE TO BE RETURNED TO CIVILIAN LIFE

NOVEMBER CALLS OFF

Classification and Examination of Registrants of September 12 Will Be Continued, However.

Washington, Nov. 12.—Local boards were instructed by the War Department today to discontinue the work of classifying registrants who on September 12 had attained their thirty-seventh birthday and to continue the classification of those who had attained their nineteenth birthday, but not their thirty-seventh. They were also directed to issue questionnaires to all registrants who had on September 12 attained their eighteenth birthday, but not their nineteenth and to complete classification of such registrants as rapidly as possible.

Washington, Nov. 12. — Secretary Baker has announced that so far as practical, all men who have been called to army service, who have not yet completed their training, will be immediately turned back to civil life.

By order of President Wilson, Provost Marshal General Crowder has directed the cancellation of all outstanding draft calls, stopping the movement the next five days of 252,000 men and setting aside all November calls for over three hundred thousand men.

Calls for the navy and marine corps are not affected by the cancellation and entrainments of men for these services and will continue as ordered. Draft boards will continue classification of registrants of September 12.

Mr. Baker made this statement after a conference, which included the heads of practically every important bureau of the War Department. He said more comprehensive announcements concerning the situation would be made later.

Turn Back All not Trained.

"All that ca nbe said now," he said, "All that can be said now," he said, under the draft have been suspended and that so far as we can, those men who have been called, but who have not completely passed through the camps, will be turned back to civilian life."

The following instructions have been sent by the provost marshal general to all local boards:

Pending developments in the situation which arises because of the fact that Germany has signed an armistice providing for the cessation of hostilities, the President directs that general and voluntary calls now outstanding for the induction and mobilization of registrants of whatever color or physical qualifications for the army be hereby canceled. Pending further instructions, no more inductions shall be made into the army for entrainment permitted or undertaken under such calls.

The President further directs that all registrants who are already inducted into the army under these calls because of the fact that the day and hour specified in their classification lists have arrived, but who have not been actually entrained for a mobilization camp, shall be hereby discharged from the army. The local boards shall so notify each registrant.

CAPTAIN ROWLETT OVERSEAS.

Wife in This City Receives Word Yesterday of Safe Arrival.

Mrs. H. S. Rowlett received a card yesterday stating that the ship on which her husband, Captain Rowlett, sailed had arrived safely at its destination. Captain Rowlett has been in service in the medical corps for the past six months.

The Brookfield Argus thinks it is all right to give Columbus credit for having discovered America in 1492, but asks to just think what the kaiser discovered about America in 1918.

ARE STILL SUBJECT TO CALL

Draft Board Clerks Kept Busy Informing Men of Status and of Cancellation of Calls.

The telephone at the local draft board offices has been kept busy since early this morning with calls from registrants who seek information regarding their status, following the conclusion of the armistice with Germany.

With the exception of calling off the quotas listed for November the work of the board will proceed as usual and classifications and physical examinations will continue until the September registration is finished. Questionnaires are being mailed to all not yet having received them and they will be required to report for examination. All registrants are subject to call the same as if no armistice had been signed. The November calls cancelled included twenty-five men for general military service to go to San Antonio, Tex., and two stenographers and a typist to go to Jefferson Barracks.

WILL HURRY PEACE

CONFERENCE WILL BE CALLED AS QUICKLY AS POSSIBLE

IS GREATEST IN HISTORY

Stable Government in Germany Must Be Set Up Before Allies Can Begin Their Dealings.

Washington, Nov. 12. — With the granting of the armistice to the beaten German armies by Marshal Foch, the next step will be the arrangement for the meeting of the peace conference, which will endeavor to reach a permanent settlement of the vast issues arising from the great world war.

More than four and a half years of incredibly bloody strife have developed problems that may not be permanently adjusted for a generation.

The Greatest in History.

The coming great peace conference will surpass any in history; not only because of the tremendous importance of the issues with which it must deal, but also literally in size. Indications are that the United States government will be represented by at least half a dozen principals, with a numerous body of secretaries, counselors, translators and clerks, and it is assumed that even the smallest of the nations which will participate will seek to make a show in point of number of delegates.

This fact may involve the transaction of most of the business of the conference by selected committees, which will represent in their composition every element and whose reports will come before the full conference for ratification.

Meeting Place not Yet Known.

As to the place of meeting, there is yet much doubt, with many claimants for that honor. While it has been urged that the conference gather in some historic spot in France, objection may lie against that proposition based on the generally accepted view that such meetings should be held at a point where they can be quite free from the charge of any local influence; in other words, it should be on neutral territory, and even some of that territory is regarded as unsuitable because of the pronounced sympathy of the population with one side or the other.

May Meet at Lausanne.

Little Switzerland is believed to be a strong favorite and there has been some mention the beautiful town of Lausanne as an ideal meeting place, one report being that American agents have quietly obtained hotel and other accommodations for the United States delegates at that place. But nothing is definitely known of the location of the meeting place.

That the Entente premiers will head their respective delegations is not doubted here and that conclusion has led to the conjecture that upon Secretary Lansing may fall the honor of leading the American delegation, which of course, probably will include Col. E. M. House, if he cares to assume that duty,and perhaps one or two of the leading members of the Senate and House. This precedent was established by President McKinley in naming the American delegates to the conference of Paris of 1898, which formally arranged peace between America and Spain.

HESSE PROCLAIMS REPUBLIC.

Special to The Democrat-Forum.

London, Nov. 12.—The German grand duchy of Hesse has proclaimed a republic, said a Geneva dispatch.

AT VERSAILLES?

PEACE CONGRESS WILL PROBABLY BE HELD IN FRENCH CITY

PLANS TAKING SHAPE

Believe Wilson Will Soon Assure German People They Will Be Fed. Armistice Leaves Her Helpless.

Washington, Nov. 12.—The peace conference is very likely to be held at Versailles, France, and not in any neutral nation. This was indicated in a wireless received by the French high commission today. It is stated that the premiers of all allied nations will assemble very shortly at Versailles to examine problems growing out of the international developments and then adds: "It is quite probable that future international conferences will assemble at Versailles."

Washington, Nov. 12. — President Wilson held a lengthy conference with Secretary of State Lansing at the White House today. The plans for the coming peace conference and the progress of internal troubles in Germany understood were thoroughly considered. Officials believe the President will take occasion soon officially to assure the German people they will be fed and provided for.

Washington, Nov. 12.—Analysis of the terms imposed upon Germany shows them to be even more drastic than those being enforced against Austria, Bulgaria and Turkey.

From a military standpoint all of these powers have been stripped even of the means of defense.

The object sought—absolute prevention of a recurrence of hostilities—is the same in each case, and, in general, the same character of concessions were required, though in Germany's case there will be no necessity to provide for future campaigns against a remaining enemy.

German Army Thing of Past.

The surrender of 5,000 cannon, 2,000 airplanes, and other war material in proportion, military men say, means that for years to come the German state will be unable to think in terms of armed force against any of the other associated against them. Austria, Bulgaria and Turkey are in the same state as to military essentials, even if the complete political disintegration of Austria-Hungary had not virtually disposed of danger from that source.

Fleet Only Old Hulks.

The strength of the German navy has been cut away by the agreement to surrender 160 submarines, six battle cruisers, and ten battleships, fifty modern destroyers and many other craft. At this single stroke Germany would lose virtually its whole modern fleet. The ships which remain are chiefly of the pre-dreadnaught days and other obsolete types.

It was noted by officers here that Marshal Foch and his naval advisers had not lost sight of the mutiny within the German fleet and the possibility that this might interfere with the carrying out of the armistice naval terms. The supplementary condition, authorizing occupation of Helgoland as an advanced base by the Allies in case the specified ships are not promptly surrendered is designed to render the German fleet harmless in any case and its destruction certain in the end.

It was noted also with satisfaction that ample precautions had been taken in the terms against the erection of any interior defenses behind the Rhine.

Occupation of the Rhine fortresses and of a thirty-kilometer zone on the right bank of the river, wherever a bridgehead is to be protected, gives absolute domination of the forty-kilometer neutral zone established east of the Rhine to the Allied forces, even without the garrisoning of any cities or other points within the zone. The way is to be kept open, continually, for advance into the heart of Germany by a dozen routes across the great river.

Floyd Coulter, the son of Mr. and Mrs. George Coulter of Clearmont died Oct. 16 in a hospital in France, death resulting from wounds received in battle.

The message came to the parents yesterday afternoon. They had previously received word that their son had been wounded. Floyd was 20 years old and received his military training at Camp Funston, Kansas. He was sent to France last April.

IS "FLU" BETTER OR WORSE?

No Definite Information Is Available as to Conditions in City.

Whether influenza conditions are better or worse in Maryville is a matter for speculation. Mayor W. O. Garrett said this afternoon he had not been able to get a line on it, but believed more were being released from quarantine than there were new cases reported. He said two new cases were reported to his this morning. At the office of Dr. F. M. Ryan, city physician, no definite information was obtainable as to the number of cases under quarantine. No new cases had been reported to the city physician's office.

CROWN PRINCE FREDERICK WILLIAM IS REPORTED TO HAVE BEEN SHOT

PLEA FOR MITIGATION

German Foreign Secretary Tells Wilson Surrender of Transports Means Starving of People.

London, Nov. 12.—Ex-Crown Prince Frederick William has been shot according to a Central News Amsterdam dispatch.

The ex-kaiser and fifty of his party have been interned by Dutch authorities at Chateau Joachim according to dispatch to the Daily Mail.

An Exchange Telegraph dispatch from Copenhagen today said Emperor Charles of Austria has abdicated. In addition to being emperor of Austria, Charles was king of Hungary.

London, Nov. 12.—Conditions approaching those of the French Revolution are reported from some parts of Germany today. Revolutionaries and others are roving indiscriminately thru Schleswig-Holstein. There is widespread anarchy.

Hospitals in Berlin are filled with persons wounded in fighting between the Revolutionaries and the local loyal troops in that city, said a Copenhagen dispatch to the Daily Express.

While the German revolution gegan in the navy, it is not yet certain how all naval revolutionaries regard the allies. The demand that Germany turn over a great part of her navy, the wireless reported, has been sent out by the revolutionary council on the German cruiser, Strassburg, calls upon German sailors to resist this condition of the armistice.

The food situation in Germany is grave and it is feared the nation will not be able to feed the soldiers when they arrive from the front.

The socialists have secured their grip on Berlin and the red flag flies over the whole German nation.

Dr. Solf, the German foreign secretary, has addressed a communication to President Wilson, asking him to intervene and seek mitigation of the armistice regarding the surrender of transport facilities, said a German wireless.

The President, he points out, has declared that he did not wish to make war on the German people and did not wish to impede its peaceful development.

"The German government has received the conditions of the armistice," continues Doctor Solf. "We had to accept the conditions, but feel it our duty to draw the President's attention most solemnly and with all earnestness to the fact that the enforcements of the conditions must produce among the German people feelings contrary to those upon which alone the reconstruction of a community of nations can rest, guaranteeing a just and durable peace.

"The German people, therefore, at this fateful hour, address themselves again to the President with the request that he use his influence with the Allied powers in order to mitigate these fearful conditions."

The Allied Terms.

Those terms are as follows:

I. Military clauses on western front:

1. Cessation of operations by land and in the air six hours after the signature of the armistice.

2. Immediate evacuation of invaded countries: Belgium, France, Alsace-Lorraine, Luxemburg, so ordered as to be completed within fourteen days from the signature of the armistice. German troops which have not left the above mentioned territories within the period fixed will become prisoners of war.

Must Free All Prisoners.

3. Repatriation beginning at once and to be completed within fourteen days of all inhabitants of the countries above mentioned, including hostages and persons under trial or convicted.

4. Surrender in good condition by the German armies of the following equipment: Five thousand guns (2,500 heavy, 2,500 field), 30,000 machine guns, 3,000 minnenwerfer, 2,000 airplanes (fighters, bombers—firstly D 73s and night bombing machines).

Must Retire Behind Rhine.

5. Evacuation by the German armies of the countries on the left bank of the Rhine. These countries on the left bank of the Rhine shall be administered by the local authorities under the control of the Allied and United States armies of occupation. The occupation of these territories will be determined by Allied and United States garrisons holding the principal crossings of the Rhine, Mayence, Coblenz, Cologne, together with bridgeheads at these points in 30-kilometer radius on the righth bank and by garrisons similarly holding the strategic points of the regions. A neutral zone shall be reserved on the right bank of the Rhine between the stream and a line drawn parallel to it twenty-five miles to the east from the frontier of Holland to the parallel to it twenty-five miles to the east from the frontier of Holl and to the parallel of Gernsheim and, as far as practicable, a distance of thirty kilometers from the east of stream from this parallel upon Swiss frontier.

Must Not Molest Civilians.

6. In all territory evacuated by the enemy there shall be no evacuation of inhabitants; no damage or harm shall be done to the persons or property of the inhabitants. No destruction of any kind to be committed. Military establishments of all kinds shall be delivered intact, as well as military stores of food, munitions, equipments not removed during the periods fixed for evacuation. Stores of food of all kinds for the civil population, cattle, etc., shall be left in situ. Industrial establishments shall not be impaired in any way and their personnel shall not be removed. Roads and means of communication of every kind, railroad, waterways, main roads, bridges, telegraphs, telephones, shall be in no manner impaired.

Must Give Up Rolling Stock.

7. All civil and military personnel at present employed on them shall remain. Five thousand locomotives, fifty thousand wagons and ten thousand motor lorries in good working order, with all necessary spare parts and fittings, shall be delivered to the associated powers within the period fixed for the evacuation of Belgium and Luxemburg. The railways of Alsace-Lorraine shall be handed over within the same period, together with all prewar personnel and material.

8. The German command shall be responsible for revealing all mines or delay-acting fuses disposed on territory evacuated by the German troops and shall assist in their discovery and destruction. The German command shall also reveal all destructive measures that may have been taken (such as poisoning or poluting of springs, wells, etc.) under penalty of reprisals.

Our Armies Must Be Fed.

9. The right of requisition shall be exercised by the Allies and the United States armies in all occupied territory. The upkeep of the troops of occupation in the Rhine land (excluding Alsace-Lorraine) shall be charged to the German government.

10. An armistice repatriation, without reciprocity, according to detailed conditions which shall be fixed, of all Allied and United States prisoners of war. The Allied powers and the United States shall be able to dispose of these prisoners as they wish.

11. Sick and wounded who cannot be removed from evacuated territory will be cared for by German personnel, who will be left on the spot with the medical material required.

II. Disposition relative to the eastern frontiers of Germany:

12. All German troops at present in any territory which before the war belonged to Russia, Roumania or Turkey shall withdraw within the frontiers of Germany as they existed on August 1, 1914.

Must Evacuate at Once.

13. Evacuation by German troops to begin at once and all civilian as well as military agents, now on the territory of Russia (as defined before, 1914) to be recalled.

14. German troops to cease at once all requisitions and seizures and any other undertaking with a view to obtaining supplies intended for Germany in Roumania and Russia (as defined on August 1, 1914).

15. Abandonment of the treaties of Bucharest and Brest-Litovsk and of the supplementary treaties.

Free Access to Evacuated Places.

16. The Allies shall have free access to the territories evacuated by the Germans on their eastern frontier, either through Danzig or by the Vistula, in order to convey supplies to the populations of those territories or for any other purpose.

III. Clause concerning East Africa:

17. Unconditional capitulation of all German forces operating in East Africa within one month.

IV. General clauses:

18. Repatriation, without reciprocity, within a maximum period of one month in accordance with detailed conditions hereafter to be fixed, of all civilians interned or deported who may be citizens of other Allied or associated states than those mentioned in clause three, paragraph nineteen, with the reservation that any future claims and demands of the Allies and the United States of America remain unaffected.

Reparation Is Demanded.

19. The following financial conditions are required: Reparation for damage done. While such armistice lasts no public securities shall be removed by the enemy which can serve as a pledge to the Allies for the recovery or repatriation for war losses. Immediately restitution of the cash deposit in the National Bank of Belgium and in general immediate return of all documents, specie, stocks, shares, paper money, together with plant for the issue thereof, touching public or private interests in the invaded countries. Restitution of the Russian and Roumanian gold yielded to Germany or taken by that power. This gold to be delivered in trust to the Allies until the signature of peace.

V. Naval conditions.

20. Immediate cessation of all hostilities at sea and definite information to be given as to the location and movements of all German ships. Notification to be given to neutrals that freedom of navagation in all territorial waters is given to the naval and mercantile marines of the Allied and associated powers, all questions of neutrality being waived.

To Surrender 160 Submarines.

21. All naval and mercantile marine prisoners of war of the Allied and associated powers in German hands to be returned without reciprocity.

22. Surrender to the Allies and the United States of America of 160 German submarines (including all submarine cruisers and mine laying submarines) with their complete armament and equipment in ports which will be specified by the Allies and the United States of America. All other submarines to be paid off and completely disarmed and placed under the supervision of the Allied Powers and the United States of America.

Will Give Up Seventy-Four Ships.

23. The following German surface warships, which shall be designated by the Allies and the United States of America, shall forthwith be disarmed and thereafter interned in neutral ports, or for the want of them, in allied ports, to be designated by the Allies and the United States of America and placed under the surveillance of the Allies and the United States of America, only care takers being left on board, namely: Six battle cruisers, ten battle ships, eight light cruisers, including two mine layers, fifty destroyers of the most modern type.

Will Sweep up Mines.

24. The Allies and the United States of America shall have the right to sweep up all mine fields and obstructions laid by Germany outside German territorial waters, and the positions of these are to be indicated.

25. Freedom of access to and from the Baltic to be given to the naval and mercantile marines of the Allied and associated powers. To secure this, the Allies and the United States of America shall be empowered to occupy all German forts, fortifications, batteries and defense works of all kinds in all the entrances from the Categat into the Baltic and to sweep up all mines and obstructions within and without German territorial waters without any question of neutrality being raised, and the positions of all such mines and obstructions are to be indicated.

Blockade Is to Continue.

26. The existing blockade conditions set up by the Allies and associated powers are to remain unchanged and all German merchant ships found at sea are to remain liable to capture.

27. All naval aircraft are to be concentrated and immobilized in German bases to be specified by the Allies and the United States of America.

28. In evacuating the Belgian coasts and ports, Germany shall abandon all merchant ships, tugs, lighters, cranes and all other harbor materials, all materials for inland navigation, all aircraft and all materials and stores, all arms and armaments and all stores and apparatus of all kinds.

29. All Black Sea ports are to be evacuated by Germany; all Russian war vessels of all descriptions seized by Germany in the Black Sea are to be handed over to the Allies and the United States of America, all neutral merchant vessels seized are to be released; all warlike and other materials of all kinds seized in those ports are to be returned and German materials as specified in clause twenty-eight are to be abandoned.

30. All merchant vessels in German hands belonging to the Allied and associated powers are to be restored in ports to be specified by the Allies and the United States of America without reciprocity.

31. No destruction of ships or of materials to be permitted before evacuation, surrender or restoration.

32. The German government will notify the neutral governments of the world, and particularly the governments of Norway, Sweden, Denmark and Holland, that all restrictions placed on the trading of their vessels with the Allied and associated countries, whether by the German government or by private German interests and whether in return for specific concessions such as export of shipbuilding materials or not, are immediately canceled.

33. No transfers of German merchant shipping of any description to any neutral flag are to take place after signature of the armistice.

VI. Duration of armistice:

34. The duration of the armistice is to be thirty days, with option to extend. During this period, on failure of execution of any of the above clauses, the armistice may be denounced by any of the contracting parties on forty-eight hous' previous notice.

VII. Time limit for reply:

35. This armistice to be accepted or refused by Germany within seventy-two hours of notification.

IS "HERE TO THE FINISH"

Cecil Wilson Writes the Following Letter to Hosick Holmes.

France, Oct. 15.

Well, here I am over here in this country they call France, having just as good a time as anybody. I would not take anything in the world for my trip across the Atlantic and my travels in France. Have seen many things that are great to see for one never here before. Of course this country is old and odd to us but we are getting used to it now but I think that the old U. S. A. will look mighty good to us, even if it has been a wonderful trip for us, laying aside the right we are fighting for.

The streets are narrow and the sidewalks the same and the buildings mostly stone. Have never run across a brick or wooden house yet except what the Americans have built, such as barracks.

The country and people are hard for us to understand at the start but I am getting so that I can speak a little French and manage to get most anything I want in the line of eats. That's what we all learn first. We get plenty to eat and warm clothes to wear so think we will be able to stay as long as the Germans want to battle Anyway. I know we are not suffering for anything. You notice by the papers the U. S. soldiers are certainly doing their part and the Hindenburg line is a mere trifle. They don't think much of going into a battle now, all they think of is going where they start and they do it. Old Nodaway turned out some fighters after all. They have all done well and are not out of heart with their work.

I haven't run across one yet who wants to come home before it is finished. So never think they are homesick because they are not, but when the war is over, the Statue of Liberty is the first thing they will watch for.

We sleep most any place and I have done the same, from a nice bed in a French home to out in the open fields when it is raining. Sleeping in barns is not half bad. Under wagons is a nice place and No Man's Land is a pleasant place to spend the night. Of course they wake you up once in a while shelling but if they get too hot, we move on a ways. * * *

All the boys I hear from that are over here are fine and dandy and like it fine. Tell all my friends "hello" and that I am feeling the best in the world and that I will be home next summer after the war.

Wishing you a Merry Christmas and a Happy New Year, I remain, here to the finish.

JOHN CECIL WILSON,
Hdqs. 4th Army Corps, A. E. F.

The Newest and Most Beautiful

SERVICE FLAG

A badge of honor should be displayed in the window of every home that has sent a boy into the Army. It is your duty and privilege to hang one of these insignias of honor in your window so all may know that a soldier has gone or is on his way to fight for liberty.

This service flag is 9x11¼ inches, made of dark red felt with metal top and silk cord. In the center of the red field is a large white star; on it is a smaller one of blue; below are two shells, their points meeting on a shield of stars and stripes with lilting words "Over There" painted in dark blue. Tell the world he has gone across or about to go by displaying this service flag. 2 or 3 stars if desired.

Sent Free and postpaid with a two-year subscription to People's Popular Monthly, the leading magazine of the middle west. Send 50c today and get this splendid home and story magazine for two years, and this beautiful service flag will be sent you promptly by return mail. Address Service Dept. 409.

WRITES FROM ENGLAND

Edgar McClurg in Aero Squadron at Camp Waddington.

Mr. and Mrs. S. A. McClurg of this city, have received the following letter from their son, Edgar, in England, in which he tells many interesting things of the civilian and army life over there.

Dear Papa and Mama: I received your letter of August 9, yesterday, and was very glad to hear from you. I am getting along fine. We are having quite a bit of chilly, rainy weather here now and some frost. This is a pretty country where I am. Quite level and lots of trees. The trees are too small for lumber and all the lumber comes from abroad. The section around here resembles South Dakota quite a bit with the exception of the soil and the trees. The crops here were good this year. They raise all small grains. I have seen no corn at all. It seems strange for they call everything corn and they don't know what corn is. I have seen many things of interest since I have been here. They do not farm and transport over here anything like we do. They use a two-wheeled cart and one horse for a wagon. Sometimes when they have an extra heavy load, they hitch one horse ahead of the other. The only time I have seen horses abreast is with the army wagons and a binder. In place of a buggy they have a sort of Chinese phaeton. They have a large box between shafts and will carry four passengers. The groceries and merchandise is carried in carts same as other things. You can see people going along jigging in those cars and it looks as if it shook them more than a Ford. The binders they use are about a three or four foot cut and they only use three horses. They have no bundle carrier. Their plows are like walking gangs. They have two furrows at once with only one beam and look like they cut about eight or ten inches. There is a wheel on the front end of the beam.

They have fine roads, all rock and macadamized. The shortage of gasoline is going to spoil a lot of people's Sundays. They are close with it over here and only use it for goverment work. Autos are mighty scarce here. They have a few Fords and a few Dodge cars but most of them are in government work.

I work on the airdome and take care of the airplane accidents and at nights when there is a convoy, I haul wounded soldiers from the hospital train to the base hospital. What do you think of the war by this time? I am looking for it to be wound up now before long. Do you get much of my mail. I write every week. The letter I received from you yesterday is the second one I have had since I have been here.

Army life is not bad, but it is not what you would call sunshine by any means. We get passes and can go to town most every night. They give us 48 hours leave with passes every month or six weeks if your conduct is good. I am going on one this week and am going to see some of the cities around. We get a seven days' pass at the end of four months. I have been here over four months so will have one coming when I want it. I think I will go to Scotland when I do get it and want to see Ireland if I can. Would like to invite you to eat Christmas dinner with me in Berlin. I may not be there myself, but our motto is "Berlin or Hoboken by Xmas." * * *

Your son,
EDWARD W. McCLURG,

RAY KINNEY IN FRANCE.

Former Employe of the Townsend Company in Active Service.

Ray W. Kinney, a former employe of the Townsend Grocery Co., has been in France since July, most of the time in active service. He registered at Okeene, Okla., and trained at Camp Travis, Texas. The family lived in Maryville until a few years ago. The following is part of a letter written to the young man's mother, who now resides at Stella, Mo.:

France, Oct. 16.

Dear Folks: It has been some time since I have had time to write you, as we have been on the move for several days. We are back now where the big guns do not sound so plainly and we have no shells to dodge. We came through some beautiful country. One night we camped in the grape country and as it was picking season, we had some to eat. They were a great treat too. This was the most enjoyable trip I have taken since coming to France. Of course one was glad to be leaving the front, as we had a long, hard stay there and that added to everyone's spirits. Then too, we have several men in our organization who are regular clowns and can furnish worlds of amusement. We have had lots of rainy weather and several heavy frosts and everything is beginning to look like fall. I haven't had any mail from you for some time, until yesterday, I received two letters. One dated Sept. 19 and one August 30. That is all the little I can write about, so will close for this time. Am well and feeling fine and hope this will find you all the same. Write soon and tell me all the news.

PVT. RAY W. KINNEY,
C. G, 357th Inft., A. E. F.

Enclosed with the letter is the following printed congratulations from the commander of the brigade, sent to each of his men after their engagement in the St. Mihiel sector.

Headquarters 179th Inft. Brigade
A. E. F., Sept. 30, 1918.

To 179th Brigade:

For what you have done in this past month, I am proud of you. Everyone in any way connected with you is proud of the bonds that linked them to you and above all, your home is proud of you and glory in what you have done. Keep on in your stride, the enemy knows and fears you. A few more drives then a touch down back of the Hindenburg line.

DON'T SUFFER WITH NEURALGIA

Use Soothing Musterole

When those sharp pains go shooting through your head, when your skull seems as if it would split, just rub a little Musterole on your temples and neck. It draws out the inflammation, soothes away the pain, usually giving quick relief.

Musterole is a clean, white ointment, made with oil of mustard. Better than a mustard plaster and does not blister.

Many doctors and nurses frankly recommend Musterole for sore throat, bronchitis, croup, stiff neck, asthma, neuralgia, congestion, pleurisy, rheumatism, lumbago, pains and aches of the back or joints, sprains, sore muscles, bruises, chilblains, frosted feet — colds of the chest (it often prevents pneumonia). It is always dependable.

(Note:—Please report or send all news of Red Cross Activities to the editor of this column)

Help Santa Find His Way to France.

This year "Night Before Christmas"
Is not as of yore,
For the Red Cross has placed it a whole month before.
No, the clock's aren't to blame,
Though the whole summer through
They behaved so peculiarly to me and to you.
For the reason is this—It's a long way to France
For a package to travel, so don't take a chance!
Yes, November the Twentieth's the very last day
That the Red Cross can send Christmas cheer on its way.
Now is the time to pack goodies—a pair warm socks
Cigarettes, candy sweets, playing cards in a box.
Of red holly or mistletoe add just a sprig
To remind him the family both little and big
Are all thinking of him on this fine Christmas day,
May his luck be the best!—tho' he's so far away.

Another week of the closing order. Influenza conditions will prevent the workrooms being open this week again and none of the auxiliaries will meet. Headquarters will remain open as usual.

George W. Simmons, manager of the Southwestern Division just returned from a meeting with Red Cross and government officials, sends the following to all chapters: "It is the unanimous concensus of opinion that even though an armistice should immediately be signed, which would indicate early peace, the work of the Red Cross will not in any way let up. With the exception of surgical dressings and some hospital supplies, the calls for finished articles will be as great as ever. Chapters should not relax their efforts. Unlimited quantities of knitted articles are still needed. Therefore keep knitting all the yarn we send you. Peace will be a crucial test by which the people of America will demonstrate to the world that we not only are united in war but also we are united in peace and proceed with reconstruction abroad and at home with the same unselfish confidence in our national leaders, as has made possible the marvelous results of our war work abroad and at home.

Those who are entitled to receive Christmas boxes to send over seas may get them at the branches which are supplied from the Chapter. Ask your branch officers for them. Branches are also advised that it is desired that everyone receive a box and if there are not enough on hand notify M. L. Alderman, secertary, immediately, as they have to be wired for. A wire order will go forward Tuesday night. If you need more boxes phone him your order.

The need for nut shells and fruit pits is so urgent that division headquarters has asked that we send them in at once by parcel post. All auxiliaries and individuals are urged to make special effort to get these to the Chapter headquarters without delay, so that they may be forwarded. We cannot afford to neglect this very important assignment. Gather up your shell and fruit pits at once and send them in.

Branches, Notice: In order that every soldier overseas may receive a Christmas box the Nodaway county chapter has been assigned a quota of 500 boxes to be filled by **donation.** This will give about 35 to each branch. These boxes will be distributed to the soldiers who will not receive packages from parents or relatives. Every soldier overseas must be remembered. It is called the "Homeless Soldier's Christmas Box." It is hoped that every branch will see that its quota of boxes is filled. Boxes must be returned to the branch for mailing and the donor will be required to pay the postage amounting to approximately 25 cents. Boxes should be distributed as quickly as received to all who will volunteer to fill one or more.

The time for turning in our last quota of knitted articles is long past due. The quota must be completed before we will receive our next shipment of yarn. It is urged by Miss Hattie Pierce that no time be lost in getting the overdue articles in without delay. There is plenty of work ahead for the knitters and our coming shipment of yarn should be on its way. Let's keep our good record for promptness in filling orders.

Have you a boy or a friend overseas? Why not send him a copy of "Home News?" It's better than a letter—tells all the news of interest of Nodaway county—nothing else—not even advertisements. It's a four-page news paper. It doesn't cost a cent and copies may be had at any branch or at headquarters. Just ask for one or more and we'll them as you would any other paper, or they can be sent in a large envelope as a letter. Every Nodaway county soldier should receive one—and he'd be tickled to death to have it. Get one today.

Details of the Christmas membership campaign of the Red Cross will be announced shortly. The organization will endeavor to enroll all Americans in the world the week of December 16-23. Roy J. Curfman is chairman of the membership drive for Nodaway county.

Report of Rebecca auxiliary at Wilcox for October is as follows: Total membership 29, hours work 94, work by auxiliary: 20 many tailed bandages 50 shot bags, 11 5-yard rolls, 12 paper backed pads; contributed to the linen shower; 7 handkerchiefs, 1 sheet, 10 hand towels, 5 bath towels, the auxiliary had three meetings in October; cash on hand $5.75. Secretary A. Neil Somerville of Maryville branch appreciates the report and suggests that secretaries of other auxiliaries follow the example.

Mourning brassards, a black arm band on which is a gold star, is meeting with the general approval of relatives who have lost men in the service. The brassards are to be worn in lieu of regular mourning. The popularity of them is indicated by orders received in Washington for 20,000 more of them. They may be had by widows and parents of men lost in the service. Get them from Miss Bettie Turner of the Home Service department.

Write to that boy. He didn't get a letter from home and he doesn't care what happens to him. All the other fellows are smiling and chuckling over their mail. He's out there wondering what the trouble is back home across the Atlantic. He's worried because he hasn't heard from "those who care." There are some families who won't write to their soldiers because all they have to tell is sad. Home Service Sections of the Red Cross are organized throughout the country to give the information and help needed to make sad news, cheerful. Their business is to chase away the worry which keeps "that boy" from being a good fighter. Their work is to see that in the next mail distribution he is not left out. And you, each one of you, just to make sure that "that boy" is not your boy, send your soldier a cheerful "homey" letter, not only tonight, but keep them going.

Eugene Pettus, director of the conservation of the Red Cross, is urging the formation of nutting clubs in an effort to increase the supply of nut shells sought by the government in the making of gas masks for American soldiers.

Doing the recent advance of the American soldiers, Red Cross supplies and provisions were carried to the front line trenches by airplane owing to the fact that the roads became congested with vehicles carrying munitions.

The Red Cross has established forty special recruiting stations in Missouri, Kansas, Texas, Arkansas and Oklahome in an effort to obtain hundreds of workers. The demands upon the Red Cross have grown so enormously that the organization's work will be impaired unless men of business training offer their services. Men are wanted in military camps to render emergency relief of every kind when called upon by the military authorities to help such soldiers as are worried about their families, to visit and to cheer up soldiers in the base hospitals and to supervise the distribution of supplies in camps and cantonments. Men and women are wanted in Washington to work as accountants, stenographers, secretaries and buyers of durgs, medicines, surgical instruments and hospital supplies. Men thoroughly experienced in commercial practice along merchandising lines, also are wanted.

SAW HOMER CROY IN PARIS

Lee Shippey of Higginsville, Was Not Lonesome Long on the Paris Boulevards.

In a letter to the Kansas City Star, Lee Shippey, well known Missouri writer and newspaper man and who is now in Paris tells of meeting Homer Croy, the Maryville author, now engaged in film work with the Y. M. C. A. A part of Mr. Shippey's letter follows:

Paris, Oct. 11 (by mail).—In Paris it was, near the Place de l'Opera, and I felt like a man in a book that night—Robinson Crusoe. The Boulevard des Italiens just then was swirling and eddying with so many streams of traffic and people that it made Fifth Avenue in New York or Michigan Avenue in Chicago, or even Grand Avenue in Kansas City look like back streets in Higginsville on a Sunday afternoon. Virtually all those people not only were strangers to me, but spoke an alien tongue and couldn't understand the one I spoke. It seemed a long, long way from old Missouri, and I was feeling as lonesome as Crusoe before he met Friday. And then——

"Why, hello, Lee!"

It was Homer Croy, once a University of Missouri boy from Maryville, but now editor of the Overseas Weekly, the official moving picture service of the A. E. F. Every night two hundred picture shows are put on at army camps in France by the department Croy is in and the same pictures are shown in all the training camps in America. This service, which is handled by the Y. M. C. A. has made that organization the largest consumer of film supplies in the world and millions of men owe hours of entertainment and pleasure to the efforts of Homer Croy.

"Gee, it's great to see a man from Missouri!" I exclaimed, after I'd lifted his "Y" cap and gazed on his baldish head and assured myself that it was he. "My eyes will be sticking out so one can knock 'em off with a stick for ten minutes from sheer surprise."

"If it affects you that way we'd better get you a pair of blinders before going on down the street," said Croy. "Why, if you want to see folks from home this is the place to do it. They're all over here. Just stand on the corner here and watch 'em go by. You can see someone from Missouri nearly any time you stand a while either on this street or the Champs Elysee."

CURE FOR BLUES NEAR THE CAMPS

Community Service Takes Place of Mother, Friends and Home for Soldiers.

Ten young officers of the Student Army Training Corps of the University of Detroit recentiy applied for a furnished house and a housekeeper who would not be a servant, but, as one young officer expressed it, "the sort of woman to whom the boys can call out 'Hello, mother!' when they come in the front door."

Homesickness is the malady for which War Camp Community Service supplies innumerable cures.

"We've got your number," says the W. C. C. S. to the homesick boy from camp with leisure to spend in any one of the three hundred towns scattered over the country. While he's wondering what on earth he'll do with himself when he gets there, not knowing a soul in town and with a limited percentage of his "thirty per" in his pocket, along comes a friendly printed card from the local branch of his own lodge announcing a reception that night especially for soldier members. By the same mail the Methodist church sends an announcement of all its meetings, addressed to him, with **This Means You** printed at the bottom. How did they know he was a Methodist?

He had forgotten about the little "Personal Card" he made out at the adjutant's request during his first day in camp when it was only one of the endless details in the round of dentists and doctors and general confusion. The W. C. C. S. had not only his number, but his name and address, his home town, the name of the school he'd gone to and a good bit about the things he was fondest of doing—each fact written into a little blank on the card especially for it.

INFLUENZA IS DUE TO WAR

Dicoverer of Germ Maintains They Are Brought by Prisoners Returning To Italy From Austria.

Rome, Nov. 8.—Professor Ciauri, who is credited with the discovery of the bacillus of Spanish influenza maintains that the germs are brought to Italy by prisoners returning from Austria.

In regard to his discovery, the isolation of the microbe and the treatment of the malady, he writes:

"The official report of my discovery of the bacillus of the so-called Spanish influenza was published for the first time on September 29 in the Policlinico, an important Italian medical paper.

"The micro-organism discovered by me is called the Bacillus Bi Polar Philomorphus Emoseptic. It is found in the blood and sputum of the victims and spreads in the air around those infected. It is also found in the expectoration of convalescents. It develops slowly, often requiring as many as five days from the time of its insertion in the culture tubes.

"As a result of its constant presence in the blood the epidemic may be called pseudo influenza septicamia. This micro-organism has no relation to the bacillus of influenza and is absolutely new to medicine. It is harmless to rats, rabbits and chickens.

"The principal means of contagion are by contact and the air. The principal preventive measures consist of the isolation of the sufferer until full convalescence. It is imperative that physicians and nurses should cover their mouths and noses with masks infused with menthol.

"Experiments are being made to perfect a serum for vaccination. In grave cases hypodermic injections of collodion or of sublimate are recommended."

"CAN I BE CURED?"

How often have you heard that sad cry from the victims of disease. Perhaps the disorder has gone too far for help, but often it is just in its first stages and the pains and aches are only nature's first cries for help. Do not despair. Find out the cause and give nature all the help you can and she will repay you with health. Look after the kidneys. The kidneys are the most overworked organs of the human body, and when they fail in their work of filtering and throwing off the poison that constantly accumulates in the system, everything goes wrong. GOLD MEDAL Haarlem Oil Capsules will give almost immediate relief from kidney and bladder troubles and their kindred ailments. They will free your body from pain in short order. But be sure to get GOLD MEDAL. Look for the name on every box. In three sizes, sealed packages. Money refunded if they do not help you. Adv.

Public Notice

To any person that wants to make more money, come to Wyoming and buy you a farm where the crop in one year will pay for the land and where one acre put in potatoes will pay for five acres at the present price; where you and your family will be healthy and you are sure to prosper if you work and try like you have to in Missouri. Now I know what I am saying, as I lived here in good old Missouri for 18 years and always tried hard to get us a home, but when I left here three years ago I owed over $1,600.00 of debts here that I could not pay, but have paid them since I went to Wyoming. I am only telling you this to encourage you to come. We have good schools good churches, good water and climate, and as good people as you can find anywhere. I have land I can sell from $15.00 per acre up to $50.00 per acre. Close to two good railroads. Have got a 2,400 acre ranch at $25.00 per acre that is sure a bargain.

Now the first reason I want you to come to Wyoming is, because if you come and buy a farm I get a small commission out of it, but that is not the best reason. I know I will be doing you a favor and know you will always be glad you come. Now, in case some stranger to me should read this ad. I will give you as reference some of the best men in Nodaway County or any other county. In Parnell, James Barber, W. N. Morgan, C. C. Evans, A. J. Roof, Bill Jackson; Ravenwood, Mo., S. E. Wells, and V. O. Hunt; Barnard, Mo., George Cole, banker; Gaynor City, Mo., Charlie Lewis; Sheridan, Mo., C. C. Hall; Hopkins, Mo., Albert Mutti; Maryville, Mo., Nathaniel Sisson, U. S. Wright, Henry Wright, James Robinson. For any information about this county, if you can't see me when I am here, write me at Carpenter, Wyo. I took three men out with me two weeks ago and sold all three a farm. Would be glad to have you talk to any of these men: Cecil Talkington of Parnell or Elmer Talkington and Pete Mumford of Bedford, Iowa. We raise corn, wheat, oats, barley, rye, speltz, flax, millet, cane and potatoes, alfalfa and good gardens. Poultry of all kinds do well. Stock of all kinds do well, especially hogs, as hog cholera is unknown.

The only way you can realize what a good county we have is to come and see it. For further information, write—

Frank Bebb, Carpenter, Wyoming
